

ROD-LOCK®

The BOP
That Clamps

Key Features

- Lock Out Clamp
- BOP
- Flow Tee

Benefits

- Designed for Reciprocating Rod Pumps
- Services a Stuffing Box on a live well
- Stroke length changes are safe and easy

OILLET

Technology Inc

A DOVER COMPANY

The Problem Solver

ROD-LOCK[®] The BOP That Clamps

Life Cycle Cost Advantages

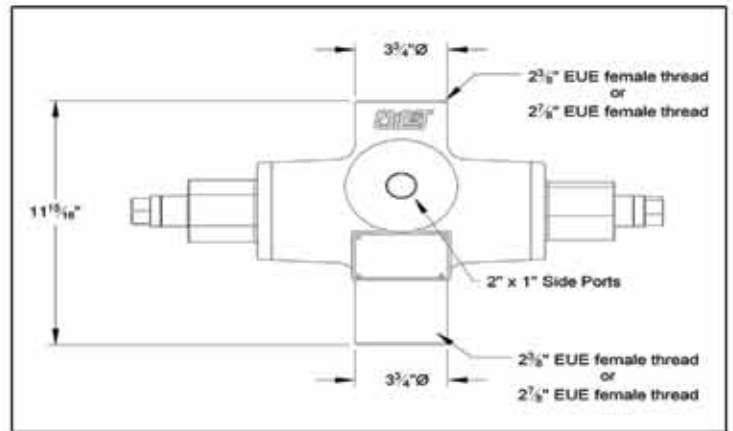

- Reduce Rig Time
- Compact design reduces well head height
- Combines BOP and Flow Tee to reduce threaded connections

Safety

- Built in Polished rod clamp eliminated stacking rod weight onto the stuffing box
- Improves safety for stuffing box packing replacement
- Pressure balanced BOP
- 1 1/4" Hex head ram actuation bolts reduces wrench slip off

Environmental Protection

- Improves well head alignment for improved stuffing box packing performance
- BOP Rubber designed for positive seal on 1 1/4" polished Rod
- BOP isolates tubing pressure from the well head for secure well shut in

Specifications

- Rated at 20,000 pounds of polished rod weight based on 800 ft-lb torque on clamp bolts
- Proof Load is 35,000 pounds without slipping
- Pressure Balanced for low actuating torque
- BOP seals rated at 3000 psi
- Body rated at 3000 psi
- 2 3/8" EUE connection 2.30 Drift Bore
- 2 7/8" EUE Connection 2.375 Drift Bore
- 2" NPT X 1" NPT side outlet connections

Sizing

- 2 3/8" EUE Female x 2 3/8" EUE Female x 2" NPT x 1" NPT Flow Tee Outlets
- 2 7/8" EUE Female x 2 7/8" EUE Female x 2" NPT x 1" NPT Flow Tee Outlets
- 1 1/4" Polished Rod
